COLOURING IN KINGSTON

at home!

SUPPORTED BY
MAYOR OF LONDON

HELLO!

While we are all staying at home, here's something for all the family to get involved in! We would love young artists to help us by 'Colouring in Kingston'.

This project is aimed to spark a conversation amongst the community, recognising young creative talent that shouldn't go unnoticed.

We have provided a second creative package full of new drawing challenges, and we will be transforming these drawings digitally, giving you the opportunity to have your work displayed in your community in the future.

However due to our current situation we are hosting an online gallery through our Instagram page [@colouringinkingston](https://www.instagram.com/colouringinkingston) showcasing the submissions produced and digital transformations!

Hello to anyone new, we are looking forward to seeing your creativity. For those who have been involved with the first phase of the project, welcome back!

Here's an example of how we have digitalised work from a young artist! If you keep your drawings in pen or pencil we will colour them in for you!

If you can't print the worksheets at home don't worry, just draw on a piece of plain paper and take a clear picture of them. Or if you can, draw on the worksheets and take a picture or scan them in.

Parents this can be for you too! Try drawing with your opposite hand with a 15 second time limit for each drawing and see what you come up with.

Please email all submissions by 03/07/20, but the sooner the better! Email to:
colour.communitybrain@gmail.com

We will credit all artists involved!
